SW-100 Soft Water

This special product is designed to use in hard water with heavy mineral concentrations.

Use: Used in hard water, in various cleaning and polishing water base formulations. SW - 100 make water soft by binding mineral and other calcium deposits, SW - 100 are designed to be used for non-potable water, such as cleaning and industrial use.

Dosage: Adjust dosage according to the hard water. Do small sample test first before adding in to big batch. Follow chart below for proper dosage.

<u>Total gal water</u>	<u>very hard water</u>	<u>Mid hard water</u>
50, gal	up to 24floz	8 to 20 floz
100 gal	up to 48floz	16 to 40floz
200 gal	up to 96floz	32 to 60floz
250 gal	up to 120 floz	64 to 80floz

Note: Use in most Alkaline pH range from 6 to 14 pH, test your water hardness before using SW - 100.

Benefits: Adjust formulations with SW-100 water softener, may reduces need of more surfactants, perfumes and dyes. Increase self-life, reduce separation problem, increase cleaning power and reduce hard surface tension.

Caution: Keep out of reach of children. To avoid direct skin contact wear rubber gloves while working with this product.

First Aid

Skin contact: Rinse off with soap and water.

Eyes: Rinse off with plenty of water. See Physician.

Ingestion: Do not induce vomiting. See physician.

Packaging: 5, gal and 55, gal drums.
